52.203-2 CERTIFICATE OF INDEPENDENT PRICE DETERMINATION (APR 1985)

(1) The prices in this offer have been arrived at independently, without, for the purpose of restricting competition, any consultation, communication, or agreement with any other offeror or competitor relating to --

(i) Those prices,

(ii) The intention to submit an offer, or

(iii) The methods of factors used to calculate the prices offered:

(2) The prices in this offer have not been and will not be knowingly disclosed by the offeror, directly or indirectly, to any other offeror or competitor before bid opening (in the case of a sealed bid solicitation) or contract award (in the case of a negotiated solicitation) unless otherwise required by law; and

(3) No attempt has been made or will be made by the offeror to induce any other concern to submit or not to submit an offer for the purpose of restricting competition.

(b) Each signature on the offer is considered to be a certification by the signatory that the signatory --

(1) Is the person in the offeror's organization responsible for determining the prices offered in this bid or proposal, and that the signatory has not participated and will not participate in any action contrary to subparagraphs (a)(1) through (a)(3) of this provision; or

(2) (i) Has been authorized, in writing, to act as agent for the following principals in certifying that those principals have not participated, and will not participate in any action contrary to subparagraphs (a)(1) through (a)(3) of this provision _____ (insert full name of person(s) in the offeror's organization responsible for determining the prices offered in this bid or proposal, and the title of his or her position in the offeror's organization);

(End of clause)

52.211-8 TIME OF DELIVERY (JUN 1997)

(a) The Government requires delivery to be made according to the following schedule:

REQUIRED DELIVERY SCHEDULE

0001AA	90 DAYS AFTER DATE OF CONTRACT (ADC)
0001AB	90 DAYS ADC
0002AA	120 DAYS ADC
0002AB	120 DAYS ADC
0003AA	120 DAYS ADC

The Government will evaluate equally, as regards time of delivery, offers that propose delivery of each quantity within the applicable delivery period specified above. Offers that propose delivery that will not clearly fall within the applicable required delivery period specified above, will be considered nonresponsive and rejected. The Government reserves the right to award under either the required delivery schedule or the proposed delivery schedule, when an offeror offers an earlier delivery schedule than required above. If the offeror proposes no other delivery schedule, the required delivery schedule above will apply.

OFFEROR'S PROPOSED DELIVERY SCHEDULE

Within Days

After Date

Item No. Quantity of Contract

(b) Attention is directed to the Contract Award provision of the solicitation that provides that a written award or acceptance of offer mailed, or otherwise furnished to the successful offeror, results in a binding contract. The Government will mail or otherwise furnish to the offeror an award or notice of award not later than the day award is dated. Therefore, the offeror should compute the time available for performance beginning with the actual date of award, rather than the date the written notice of award is received from the Contracting Officer through the ordinary mails. However, the Government will evaluate an offer that proposes delivery based on the Contractor's date of receipt of the contract or notice of award by adding (1) five calendar days for delivery of the award through the ordinary mails, or (2) one working day if the solicitation states that the contract or notice of award will be transmitted electronically. (The term "working day" excludes weekends and U.S. Federal holidays.) If, as so computed, the offered delivery date is later than the required delivery date, the offer will be considered nonresponsive and rejected.

(1) Unless exempted by an addendum to this contract, the Contractor is responsible during performance and through final payment of any contract for the accuracy and completeness of the data within the CCR database, and for any liability resulting from the Government's reliance on inaccurate or incomplete data. To remain registered in the CCR database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the CCR database to ensure it is current, accurate and complete. Updating information in the CCR does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(2)(i) If a Contractor has legally changed its business name, "doing business as" name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in FAR subpart 42.12, the Contractor shall provide the responsible Contracting Officer a minimum of one business day's written notification of its intention to (A) change the name in the CCR database; (B) comply with the requirements of subpart 42.12; and (C) agree in writing to the timeline and procedures specified by the responsible Contracting Officer. - (b) Please refer to IHD 211- BEST VALUE EVALUATION AND BASIS FOR AWARD for a point breakdown and which specifications qualify for bonus performance points.
- (c) The Offeror is not required to provide any additional information for this section. Points awarded will be based on the information provided in the TECHNICAL PROPOSAL section.

3) PAST PERFORMANCE

- (a) The Offeror will be rated based on the past performance of the organization and its products.
- (b) The Offeror must provide contact information for a minimum of three customers who have bought the laser systems proposed in this contract, or a close likeness, in the last five years. This equates to a minimum of six (6) total references: three for System A and three for System B. The Offeror shall list these references using the Past Performance Matrix (Attachment 1).
- (c) The Offeror shall submit the Past Performance Questionnaire (Attachment 2) to each of the references listed on the Past Performance Matrix, a minimum of six (6) is desired. The Offeror shall instruct the references to complete the Past Performance Questionnaire and return it by no later than 22 July 2004, directly to:

Attn: Brenda Price, Code 1143B
Naval Surface Warfare Center
101 Strauss Ave., Bldg. 1558

- (a) The Offeror must submit a complete cost breakdown of each proposed laser system. Each of the following should be listed in the itemized cost list:
 - i. System A
 - 1. Pump Laser - Standard pump laser package, harmonic optics options, injection seeder (if applicable)
 - 2. OPO/OPA - Standard OPO/OPA package, extra optics options to extend spectral range.

- ii. System B
 - 1. Pump Laser - Standard pump laser package
 - 2. OPO/OPA - Standard OPO/OPA package, extra optics options to extend spectral range (if applicable).

IHD 211 - BEST VALUE EVALUATION AND BASIS FOR AWARD (FFP) (MAR 2000) (NAVSEA/IHD)

1. GENERAL: The Government shall award a contract resulting from this solicitation to the responsible Offeror whose submission represents the best overall value based on the evaluation of the factors listed in SECTION L. The specific evaluation of each factor will be addressed below. The Government will rate each solicitation in accordance with the Source Selection Plan and determine the proposal that offers the best value to the Government.

2. RELATIVE IMPORTANCE OF THE EVALUATION FACTORS (Listed in order of importance)

- (a) Technical Proposal
- (b) Bonus Performance
- (c) Past Performance
- (d) Price

3. METHODOLOGY

(e) FACTOR A (Technical Proposal): Meeting the Government required minimum for each specification described in the statement of work earns the proposal an automatic 50 points. This will be a simple checklist that we will use to ensure the specifications are met. There will be a ten (10) point deduction for each specification that does not meet or exceed the Government minimum that is requested in the statement of work.

(f) FACTOR B (Bonus Performance): These points are added to the proposal's technical score as incentive to exceed the Government minimum requirements in the categories of laser power, repetition rate, and spectral range. Maximum Bonus Points is 25 per system.

i. Laser System A (25 Possible Points)

1. Pump Laser

- a. Energy (10 points) – 1 bonus point will be awarded at each of the described output wavelengths (1064/532/355) for every 10% increase in laser energy that the proposed laser offers above and beyond the Government minimum. For example, a pump laser that emits 1800 mJ/pulse at 1064 nm will receive 2 bonus points since the quoted output energy exceeds the Government minimum by 20%. The pump laser will receive similar bonus points at each of the three wavelengths, such that the total bonus received is set to a maximum of 10.

- b. Linewidth (5 points) – 5 bonus points will be awarded to the pump laser that decreases the linewidth to ≤ 0.01 wavenumber (for example: using an Injection Seeder).

2. OPO/OPA

- a. Energy (5 points) – The energy curves supplied by the Offerors will be compared over the full spectral range. Three output energies will be cataloged from each of the three spectral regions required (UV, Visible, and NearIR as described in section

IV.B.1.a of the “Statement of Work”). The wavelengths will be arbitrarily chosen by the Evaluation Panel to produce an average UV, Visible, and NearIR energy value. The top overall performer will receive 5 bonus points and the other systems will receive bonus points that reflect its relative performance when compared to the top performer.

- b. Spectral Range (5 points) – The spectral range must cover 215-2500 nm (with a potential dip near 700 nm). 5 bonus points will be awarded to the OPO/OPA that will extend this range to 215-5000 nm.

ii. Laser System B (25 Possible Points)

1. Pump Laser

- a. Energy (5 points) – 1 bonus point will be awarded for every 10% increase in average per-pulse laser energy that the proposed laser offers above and beyond the Government minimum. For example, a pump laser that emits 2.2 mJ/pulse will receive 1 bonus point since the quoted output power exceeds the Government minimum by 10%. The maximum bonus for this category is 5 points (i.e. ≥ 3.0 mJ/pulse).
- b. Repetition Rate (10 points) – 1 bonus point will be awarded for every 1 kHz increase in repetition rate of the amplified output of the pump laser (a maximum of 10 points can be earned). If the pump laser operates at multiple repetition rates, we will award the highest repetition rate where the laser still produces 1 mJ/pulse energies.

2. OPO/OPA

- a. Energy (5 points) – The energy curves supplied by the Offerors will be compared over the full spectral range. Three output energies will be cataloged from each of the three spectral regions required (UV, Visible, and NearIR as described in section IV.B.1.a of the “Statement of Work”). The wavelengths will be arbitrarily chosen by the Evaluation Panel to produce an average UV, Visible, and NearIR energy value. The top overall performer will receive 5 bonus points and the other systems will receive bonus points that reflect its relative performance when compared to the top performer.
- b. Spectral Range (5 points) – The spectral range must cover 200-2500 nm (with a potential dip near 700 nm). 3 bonus points will be awarded to the OPO/OPA that will extend this range to 215-5000 nm. 2 more bonus points will be awarded to the OPO/OPA that will extend this range to 215-10,000 nm.

- (g) FACTOR C (Past Performance): The Government will evaluate the quality of the Offeror's past performance. The assessment of the Offeror's past performance will be used to evaluate the relative capability of the offeror and their competitors to successfully meet the requirements of the Request for Proposal (RFP). This evaluation may include any aspect of past performance that is related to this contract. A record of poor past performance may be considered an indication that the Offeror may be lacking in areas such as technical success, quality and customer satisfaction. In evaluating an Offeror's past performance, the Government will consider information contained in the Offeror's past performance references, information obtained from other sources, including past and present customers, subcontractors and any others who may have useful information, and other past performance data available to the Government. Offerors who state in their offer that they have no past performance history will receive a neutral rating. The factors listed below (which are equal in importance) will be used to evaluate past performance:

- i. Customer Satisfaction. The Offeror's demonstrated commitment to maintaining an acceptable level of performance and customer satisfaction.
- ii. Timeliness. The Offeror's demonstrated ability to meet contract schedules and delivery dates.
- iii. Technical Success. The Offeror's demonstrated ability to understand and perform contract requirements.
- iv. Program Management. The Offeror's ability to meet or exceed its subcontracting plans.
- v. Quality. The Offeror's demonstrated ability to conform to contract specification requirements.

Contracting Officers will use the following adjectival definitions as guidelines in evaluating past performance:

Excellent - The Offeror's performance was consistently superior. The contractual performance was accomplished with minor problems, to which corrective action taken by the contractor was highly effective.

Good - The Offeror's performance was better than average. The contractual performance was accomplished with some minor problems, to which corrective actions taken by the contractor were effective. They would be willing to do business with the Offeror again.

Average- The Offeror's performance was adequate. The contractual performance reflects a problem, to which the contractor has not yet identified corrective actions. Consideration would take part in awarding a contract to the Offeror again.

Poor - The Offeror's performance was entirely inadequate. The contractual performance of the element being assessed contains problems, to which the contractor's corrective actions appear to be or were ineffective. They would not do business with the Offeror again under any circumstances.

Neutral - Offerors lacking relevant past performance history will receive a neutral rating for past performance.

FACTOR D (Price): Price will be evaluated for all Line Items.

Although price is not the most important evaluation factor; it will not be ignored. Prospective Offerors are forewarned that a proposal meeting solicitation requirements with the lowest evaluated price may not be selected if award to a higher priced offeror is determined to be most advantageous to the Government.

4. The Government may award a contract on the basis of initial offers received, without discussions. Therefore, each initial offer should contain the Offeror's best terms from a cost/price, technical and past performance standpoint. However, if considered necessary by the Contracting Officer, discussions will be conducted only with those Offerors determined to have a reasonable chance for award.

5. Each factor shall be reviewed based on the merits of the information contained in the Offerors' submission. The technical review team will only examine Factors 1 and 2. Factors 3 and 4 shall be evaluated by contracts personnel. Each factor shall be reviewed and assigned a rating for each of the following areas:

Factor 1- Technical Proposal
Factor 2 - Bonus Performance
Factor 3 - Past Performance
Factor 4 - Cost/Price

Once all evaluations are complete the corresponding scores shall be tabulated and placed in a chart as follows in this example:

Offeror	Factor 1 and 2 Score*	Past Performance Rating	Cost/Price
A	90	Excellent	\$275K
B	95	Excellent	\$300K

C	0**	Good	\$200K
D	80	Excellent	\$175K
E	95	Poor	\$150K

* Not to exceed 100

** Offeror did not comply with RFP instructions, such as failing to submit a complete technical proposal.

Once this information is tabulated, offerors will be compared making value and price tradeoffs and award will be made to the offeror that represents the Best Value to the Government. If the offeror with the highest scores also represents the lowest price then that offeror is likely to be the Best Value. If an offeror with higher scores has a higher price, then a determination must be made whether the difference in value warrants the higher price. In the example the Government would determine whether offerors A, B, D, or E represent the best value. Offerors B and E have the highest Factor 1 and 2 score, but offeror E has the lowest past performance. If it could be determined whether offeror B's technical score represents a greater value than offerors A and D's score, then offeror B may be considered the best value, even though offeror B has a higher cost. Offeror E, even though reflective of a high technical score would not be considered the best value based on the combination of scores received for the evaluation factors. Offeror C did not comply with the instructions as stated in the solicitation and therefore received a technical score of zero. As the technical evaluation is the most important factor the Government has determined that offeror C does not represent the best value in regards to the evaluation factors.
